Principal risks and uncertainties

As required by its regulator, Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin), Markel Insurance SE (MISE) monitors the risks to which it is exposed, which includes all business underwritten by the MISE Swiss Branch. MISE groups the risks under the following categories in line with Solvency II requirements:

- Underwriting Risk
- Reserving Risk
- Market Risk
- Credit Risk
- Operational Risk

- Liquidity Risk
- Group Risk

The MISE Chief Risk Officer (CRO) and MISE Management Board regularly review the risks to which MISE is exposed. The CRO ensures that appropriate measures are taken to mitigate risks and, in addition, the Risk Management department of Markel International monitors the identified risks with qualitative and quantitative risk analyses and assessments and ensures regular and, where necessary, ad-hoc reporting to the MISE Management Board.

An Own Risk and Solvency Assessment report is produced being a forward looking assessment of the risk profile and adequacy of MISE capital to meet solvency needs over the business planning time horizon. MISE is in compliance with Solvency II.

MISE uses the Standard Formula to calculate its Solvency Capital Requirement under Solvency II.

Future prospects

With disciplined underwriting and its strong financial condition the Branch is in an excellent position to capitalise on opportunities as they arise. The Branch will continue to apply Markel's underwriting discipline of underwriting for profit rather than volume and, accordingly, will decline business where the rates are not acceptable.

The Branch does not anticipate any short or medium-term impact on its technical provisions related to Covid-19, which consists of general liability insurance. These are not a direct consequence of the Covid-19 pandemic, unlike daily sickness benefits, business interruption or cancellation of events.

No material uncertainties that cast doubt about the ability of MISE or the Branch to continue as a going concern have been identified.

The Directors of MISE have a reasonable expectation that MISE and the Branch have adequate resources to continue in operational existence for the foreseeable future.
